COMMUNICATION

Applicants request that this communication be fully considered and entered into the record of the above-identified patent application.

Claims 1-39 remain pending in this application pursuant to the Preliminary Amendment filed August 1, 2005. All claims remain unchanged.

During the telephone interview of July 6, 2006 between the undersigned and the examiner, the merits of the application were discussed. Examiner indicated that instant claims 1-39 were deemed to be provisionally rejected under the judicially created doctrine of obviousness-type double patenting over the claims of U.S. Patent No. 6,613,357. Examiner indicated that the rejection could be overcome by the filing of a terminal disclaimer over the '357 Patent.

Applicants hereby submit a terminal disclaimer citing the '357 Patent. Accordingly, Applicants request that the provisional rejection has been overcome and that it be withdrawn.

Docket No. PHUS-100

Applicants respectfully submit that this application is now in form for allowance and an early notice of allowance is requested.

Respectfully submitted,
